Work Experience:

Live Project And Local Client Work Experience

As a passionate UX/UI Designer, I completed a full case study on a Travel Agency Website, focusing on user research, wireframing, and high-fidelity UI design. My design process emphasizes usability, accessibility, and aesthetics, with a strong focus on user needs and business goals. Designed wireframes and mockups for e-commerce websites, leading to a 15% increase in sales. Assisted in developing a design system to standardize components across applications. Conducted A/B testing to evaluate design effectiveness, increasing user retention by 10%. Used tools like Sketch and InVision to deliver high-quality design deliverables.

Work Experience: 1 Years
